

Adelaide Art Society Social Night Friday 31st March 7.30pm
Angelika Erbsland - Contemporary Acrylic Landscapes
Integrating patterns and shapes from nature

After studying painting, drawing and ceramics at TAFE in S.A., I have lived and exhibited extensively in both Adelaide and Sydney, and have taught painting and drawing for 35 years, including overseas workshops. I have explored a variety of media and subject matter, and won numerous prizes for these disciplines. I now enjoy working mainly in **acrylics and watercolours in a modern contemporary style.**

In this demonstration I will use acrylics, and show my method of constructing a painting predominantly from my imagination. I like to integrate the patterns and shapes in nature in a slightly abstracted representation to create a good composition that still has a narrative.
